

Erasmus+

UNDER THE SPOTLIGHT

From June 21 to June 29, 2021, members of the KUTEL project consortium, Kazakhstan partners, held a series of webinars on the topic "Ensuring the quality of technology-based education." All universities in Kazakhstan, as well as various interested organizations, were sent an Information Letter inviting them to participate in webinars within the framework of the above topic. Each day of the webinar was devoted to a certain module of the general topic, for the presentation of which one of the members of the consortium, a partner from Kazakhstan, was responsible. The opening of each day of the webinar began with a greeting from the rector of the university or a representative of the top-management. The Committee for Quality Assurance in Education and Science of the Ministry of Education and Science of the Republic of Kazakhstan represented by Gulzhana Sagidullaeva

During the meeting the special emphasis was done on the aspect of using TEL technologies when creating a virtual foresight laboratory as a tool for communicating with stakeholders for the implementation of the roadmap and substantiating the spectrum of meta-competencies of humanitarian students. In general, the participants discussed the issues of the point effect of the KUTEL project on improving the quality of the educational process in universities, touched upon such topics as "Innovation and

NEXT STEPS

National webinars were one of the components of the dissemination of the project results. They received a wide response not only in social networks, but also at various subsequent scientific and educational events, at which the experience of the project and the value of its results were mentioned. At the moment, the entire consortium of the project is preparing for its completion. The final conference, as well as the meetings of the consortium, will be held at the

digitalization: TEL and the quality of the educational process", "Quality of TEL education: involvement of stakeholders", "Definition and development of a procedure of external quality assurance as a driving force of organizational development and cultural change", "Modernization of the educational process: Interaction student-student and student-teacher" and many others.

International Information technology University in Almaty from 11 to 13 October 2021

At the conference, the participants will share not only the results of their work on various aspects of the project, but also the impact of the project at the individual, institutional and national level.
